

SIRIGE VENKATA MYTRESH SAI GOWD

 GitHub —  LinkedIn —  mytreshgowd@gmail.com —  +91 8555836148

Computer Science undergraduate at VIT-AP University (CGPA: **8.81**) with experience building full-stack web applications, real-time collaborative systems, and scalable backend systems. Passionate about software engineering, backend development, and building production-ready applications.

EDUCATION

VIT-AP University	2023 – 2027
<i>B.Tech in Computer Science and Engineering</i>	<i>CGPA: 8.81</i>
Narayana Junior College, Hyderabad	2021 – 2023
<i>Intermediate (Class XI-XII)</i>	<i>97.8%</i>

SELECTED PROJECTS

MovieHub	Git	Demo
- Built a full-stack movie ticket booking platform using Django with user authentication, theatre browsing, and dynamic seat reservation. - Designed relational database models for users, theatres, movies, shows, bookings, and seat availability using Django ORM and SQLite. - Implemented reusable Django templates, database-driven booking workflows, and deployed the application on Render using GitHub version control.		
Real-Time Collaborative Spreadsheet	Git	Demo
- Developed a collaborative spreadsheet using Next.js, TypeScript, Tailwind CSS, and Firebase Firestore. - Implemented live synchronization, collaborative presence indicators, spreadsheet formulas, and automatic save-state tracking. - Built reusable frontend components enabling concurrent multi-user editing with responsive user experience.		
Learning Log	Git	Demo
- Built a full-stack Django application enabling authenticated users to create, edit, and organize personal learning journals. - Implemented user authentication, CRU operations, reusable templates, and relational database models using Django ORM. - Deployed the application on Render with GitHub integration following Django development best practices.		
Delivery Time Predictor	Git	Demo
- Built a web application for predicting food delivery time through an interactive user interface. - Designed an end-to-end workflow for collecting delivery details and displaying prediction results. - Deployed the application on Render using GitHub for version control and continuous updates.		

TECHNICAL SKILLS

Languages	Python, Java, C
Frameworks	Django, Flask, Next.js
Frontend	HTML, CSS, Tailwind CSS
Databases	SQLite, MySQL, Firebase Firestore
Developer Tools	Git, GitHub, Render, VS Code
Core CS	Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

EXPERIENCE

SmartInternz	May 2025 – Jun 2025
<i>Summer Intern</i>	
- Worked on developing data-driven software solutions while gaining practical exposure to the complete software development lifecycle. - Collaborated on project implementation, application development, testing, and deployment workflows in a structured internship environment.	

LEADERSHIP

CEO – MConnect (Entrepreneurship Course Project)	2024
<i>VIT-AP University</i>	
- Led a three-member founding team to conceptualize and develop MConnect, an academic platform connecting entrepreneurs with mentors and collaborators. - Defined product vision through customer discovery, business modeling, and MVP validation as part of an entrepreneurship course project.
