

SIRIGE VENKATA MYTRESH SAI GOWD

 Portfolio —  Mytresh-gowd —  mytreshgowd@gmail.com —  +91 8555836148

CAREER OBJECTIVE

Computer Science undergraduate at VIT–AP University seeking a Software Engineer role to apply problem-solving and software development skills, contribute to real-world products, and continuously learn new technologies through practical experience.

EDUCATION

VIT–AP University	2023 – 2027
<i>B.Tech in Computer Science and Engineering</i>	<i>CGPA: 8.81</i>
Narayana Junior College, Hyderabad	2021 – 2023
<i>Intermediate (Class XI–XII)</i>	<i>97.8%</i>

SELECTED PROJECTS

MovieHub	GitHub	—	Live Demo
- Developed a full-stack movie ticket booking platform using Django with user authentication, theatre browsing, show selection, dynamic seat reservation, and booking history. - Designed relational database models for users, locations, theatres, shows, and bookings using Django ORM and SQLite, with reusable Django templates and database-driven booking workflows.			
Delivery Time Predictor	GitHub	—	Live Demo
- Developed a web application that predicts food delivery time from delivery, location, traffic, weather, and order-related input features through an interactive user interface. - Performed data preprocessing and feature engineering using Pandas and NumPy, developed and evaluated a machine-learning model using Scikit-learn, and integrated the model with Flask.			

TECHNICAL SKILLS

Programming Languages: Java, Python, C, SQL
Web Technologies & Frameworks: HTML, CSS, JavaScript, Django, Flask
Databases: SQLite
Core CS: Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
Developer Tools: Git, GitHub, Render
AI Tools: ChatGPT, Gemini

EXPERIENCE

SmartInternz	May 2025 – Jun 2025
<i>Summer Intern</i>	
- Worked on developing and deploying a machine-learning based web application, gaining hands-on experience with Python, Pandas, NumPy, Scikit-learn, and Flask. - Gained practical understanding of the software development lifecycle, including problem definition, application development, testing, debugging, and deployment. - Worked collaboratively on project implementation and contributed to application development and deployment workflows.	

LEADERSHIP

CEO – MConnect (Entrepreneurship Course Project)	 Documentation
<i>2024</i>	<i>VIT–AP University</i>
- Led a 3-member team to conceptualize and develop MConnect, an academic platform connecting entrepreneurs with mentors and collaborators. - Defined the product vision through customer discovery, business modeling, MVP validation, and coordinated end-to-end project execution.
